jubilee. Every means available were resorted to in order to rouse the enthusiasm of Washington women, and the jubilee this week is expected to be by all odds the greatest undertaking of its kind the city has ever seen. Among the speakers will be Mrs. Henry W. Peabody, with whom the idea of the celebration of the fittleth anniversary of women's work for foreign missions originated, who will arrive here Wednesday, and will be at the Hamilton Hotel.

A bill embodying the terms of the administration's reciprocity agreement with Canada was introduced in the House yesterday by Representative Samuel W. Mc-Call, of Massachusetts. The bill was presented by Mr. McCall

at the request of the White House, and chairman of the Ways and Means Committee, caused considerable comment. ered he wrote that letter to the Leaders in the House declare, however that there is no particular significance to this circumstance

Representatie Payne has not publicly declared his intentions in regard to the proposed legislation, but it is believed that he will be found with most of the behind the agreement. It is doubtful though, if it will be a service of love with him or any of the other stand-pat lead ers of the House.

## Will Be Pushed.

The introduction of the measure by Representative McCall means that he will take a leading part in defending it on the floor of the House. He is a strong advocate of reciprocity, and was one of the first of the New Englanders to announce his support of the agreement. Representative McCall is a member of Ways and Means Committee.

The bill was referred immediately to that committee, and will be taken up on Monday or Tuesday. The committee already has received several requests for hearings, and these will be granted. It is the hope of administration leaders that the proposed legislation will be reported out by the committee by the end of next week. The data collected by the negonitators will be turned over to the Ways and Means Committee.

May Make Special Rule. President Taft's supporters on subject in the House have not yet formu lated a plan for the bill when it leaves the committee. There is talk of the Will Put Defeat of Measure the committee. There is talk of the Rules Committee being asked to report a special rule barring amendments to the reciprocity bill.
